## BENEFITS

### Seamless Financial Management

Integrates finance, accounting, and payables/receivables into a unified system, reducing errors while improving transparency and compliance.

### Multi-Company & Branch Control

Keeps all branches and companies connected in one place, making it simple to track work, share reports, and manage teams smoothly.

### Smarter Inventory & Batch Tracking

Manages stock levels, batch numbers, and expiry dates in real time, ensuring accuracy, reducing waste, and supporting timely order fulfillment.

### Optimized Procurement & Cash Flow

Streamlines purchases, payables, and day-book entries with automated processing for both cash and credit transactions, leading to better supplier relationships and cost control.

# NUMBERS ERP

Numbers ERP is a robust enterprise resource planning system designed to integrate and automate your core business functions. From finance and asset tracking to sales, purchasing, inventory, production, and human resources, every workflow is streamlined within a centralized system, whether deployed on-premise or in the cloud.

## KEY FEATURES

- Web-Based Solution
- Security & Access Control
- Integrated System
- Multi-Tenant Application
- Day-Book Activity
- Barcode Scanning
